IOA VISUALIZATION DEPARTMENT

VISUALIZING THE FUTURE OF HEALTHCARE FURNITURE

Most people are visual learners. If our clients can see the quality and how high-end IOA furniture looks in the space being furnished, our reps almost always get the job. To put our clients in the setting they are designing is something that sets us apart from competitors and drives home the sale.

PRESIDENT IOA-HCF

RENDERING TYPES & NEEDED MATERIALS

I reach out to Chris Johnson with all the required information and when I need the project completed. We discuss the details of what the client is looking for, and he creates a beautiful, high-quality rendering.
