

Partner

‘Every Recliner Needs a Partner’

Partner makes a perfect companion for every recliner within the healthcare environment. Its versatility is ideal as seating for guests and clinicians alike. Engineered with an aluminum tube-frame construction, Partner is lightweight for ease of transport as well as cleanable for infection control. When limited space is a concern, Partner cooperates by providing a small footprint and stackable design feature for space-saving capabilities. Also, it offers an upholstered cushioned back and seat padding for added comfort. With all these qualities, it isn't any wonder why Partner is a great seating option to keep someone company.
